

# 2 gas turbine units TURBOMACH TITAN 130, Greece (Fast Track)

## Description

**CUSTOMER**  
Public Power Corporation

**LOCATION**  
Greece

**SECTOR**  
Energy Projects

**CATEGORY**

Gas Turbines / Combined Cycle

**START**

2015

**STATUS**

Complete

## Project Summary

Turn-key engineering, procurement and construction of two (2) new open- cycle Gas Turbine Units, type TURBOMACH TITAN 130, with 13.060 KW at generator terminals under ISO conditions, with light fuel oil (LFO), at the Autonomous Generating Stations of Paros and Mykonos, in Greece.

The project was executed on fast-track basis, with total time from contract signature to commercial operation of 31 days for the first unit and of 41 days for the second unit.
