

PRESS RELEASE

One year of stable, competitive prices for everyone by Protergia

and now... the next chapter in energy!

Athens, Greece – May 28, 2025 – [Protergia](#), an integral part of **[METLEN](#)**, made a promise to all consumers: in a market full of constant change, challenges, and uncertainty, it kept its prices steady for an entire year.

Specifically:

- For one full year, it maintained the special “green” residential bill, **Value Special**, at **€0.159/kWh**.
- No increase in the fixed “blue” **[Value Secure 12M](#)** bill, which continues to be offered for another month at the highly competitive price of **€0.099/kWh** (with on-time payment discount), offering 12 months of safety and confidence.
- For over a year, the variable “yellow” **[Value Swift on time](#)** residential bill has remained at the same price. And this June, it's still available at **€0.09093/kWh**, rewarding consistency.
- Lower combined pricing with the **[Value Power & Gas 12M](#)** plan: **€0.0369/kWh** for natural gas and **€0.099/kWh** for electricity. New and existing customers are already seeing these lower rates on their bills this month—**no action required!**

Protergia's strategy over the past year has been grounded in two core values: **customer-centricity** and **innovation**. That's why the next chapter in energy begins with groundbreaking new products and services—starting with the launch of **[Protergia Picasso](#)**. A new energy plan where customers choose the amount they want to pay each month, starting from just **€29.99/month** for a full year, covering **all energy charges** (both competitive and regulated).

Protergia remains committed to supporting consumers—either through pioneering products like **Protergia Picasso**, a “shield” against market volatility, or by maintaining prices on its already competitive offers.

And don't forget the **[Powergiving!](#)**

Every month throughout 2025, **one grand winner receives €50,000**, **10 lucky winners get €5,000 each**, and **100 Protergia customers enjoy free energy for a whole year!**

So far, **555 customers** have already been rewarded for their trust in the first five draws. The next draw—bringing **111 new winners**—is scheduled for **June 11!**

Always with Protergia's Confidence and Safety.
